

# Curriculum Management Platform

LSU is rolling out Modern Campus Curriculum (MCC), an innovative curriculum management system designed to make course and program proposals simpler, faster, and more transparent. This user-friendly platform streamlines approvals, enhances communication, and ensures compliance—all while keeping faculty in the driver's seat. With Modern Campus Curriculum, managing curriculum changes will be more efficient and hassle-free than ever!

- **Streamlined Approvals**
- **Seamless Collaboration**
- **Effortless Catalog Integration**

## Why MCC?

Modern Campus Curriculum makes curriculum management faster, smoother, and more connected. With real-time tracking, seamless collaboration, and fewer delays, faculty stay informed and in control. The system also simplifies catalog updates, ensures compliance, and reduces workload—freeing up more time for teaching, innovation, and student success!

## How's it Work?

Modern Campus Curriculum keeps the faculty-driven approval process intact while adding efficiency and transparency. Proposals follow LSU PS-45 routing with built-in compliance checks, real-time tracking, and automated notifications. Once approved, proposals seamlessly integrate into the General Catalog, ensuring accuracy and reducing manual updates.

## Who's Involved?

Modern Campus Curriculum is a collaborative effort led by LSU faculty, with support from the University Registrar, Academic Affairs, and Institutional Effectiveness. Key stakeholders, including Faculty Senate, Deans, and Department Heads, help guide the transition for a smooth implementation.
